

Article no.	722
Name	Camapren®
Material	chloroprene, natural latex
Description	cuff, surface profile, flock lined
Length (mm)	290-310
Thickness (mm)	0,6±0,1
Colour	red
Size	7, 8, 9, 10, 11
Classification	category III EN388  EN374  EN374  EN421 1111 AKL

#### FEATURES

- › free from the allergenic substance mercaptobenzothiazol
- › glove surface free from silicone (lacquer indifference, test method automotive industry)
- › cotton flock lining
- › stretched cuff
- › authorisation according to EN 421 (radioactive contamination)

#### APPLICATION

- › laboratory work
- › chemical industry
- › galvanising works
- › automotive industry
- › beverage industry

#### QUALITIES AND ADVANTAGES

- › excellent sensitivity
- › good grip when handling greasy and oily parts
- › high flexibility at low temperatures
- › high elasticity
- › excellent wearing comfort
